#### Discuss Enlarged Municipal Area

The proposed new Eularged Municipal District of Dog Pound No. 280, together with the map of the proposed district, came in for sonsiderable discussion at the meeting of the Mountain View Council, held on Saturday. The proposed new district will take in the Municipal District of Mountain View, Westerdale, Rosebud, Beaver Dam and the three westerly townships of the M.D. of Stauffer.

The secretary was instructed to

three westerly townships of the M.D. of Stauffer.

The secretary was instructed to write to the Department to the effect that in principal the Council was opposed to the Enlarged Municipal Districts, but inasmuch as apparently the Department of Municipal Municipal flow the Council of Municipal Municipal flow that a different not but suggested that no further area be added to it.

On behalf of the Didsbury Local improvement Committee, Dr. Clarke, appeared before the Council asking for their approval of the balance of area in Mountain View and Westerdale, not in the Olds Hospital District, and the northern half of the Beaver Dam and Rossbud Manicipalities. The council gave this approval to the establishment of Almontain View and Westerdale, not in the Olds Hospital District, and the northern half of the Beaver Dam and Rossbud Manicipalities. The council gave this approval to the establishment of the Didsbury Local improvement Committee, Dr. Clarke, and also suggests the developed and the proposed area in Mountain View and Westerdale, not in the Olds Hospital District, and the northern half of the Beaver Dam and Rossbud Hospital District, and the northern half of the Beaver Dam and Rossbud

of a Hospital District.

A letter was read from the Game Department stating that they were prepared to pay a bounty of \$2,00 per head on coyotes, provided the municipality would pay an additional abounty of \$3,00 per head. The council decided to co operate and pay the additional amount, bringing the bounty to \$5,00 per head. The hides must be presented and the place and time when caught declared, when the bounty is applied for.

A communication was read from the Department of Agriculture to the effect that the project offering assistance to obtaining purebred sires for cattle, sheep and hogs, is still in effect.

still in effect.

The council arranged for the gravelling of the market road east, trom Olds, and it is hoped to gravel from 8 to 9 miles this fall. The secretary was instructed to write Mr. Cook, Mt.A. for Olds, asking him to use his influence in obtaining an additional Government grant of \$1500.00 towards this project.

Councillors B. C. Trimble and F. Metz were appointed delegates to

wedding anniversary.

Mr. and Mrs Braley were the recipients of many gifts, which were in harmony with the occasion. They heatily thanked their friends for calling on them, and rendered a musical number, as a "thank you".

A very dainty lunch was served, after which thier friends parted, wishing the honored ones many more years of happy married life.

Among the guests were Mr, and Mrs. Harold Bradford, who were celebrating their seventh wedding anniversary.

A SHORT NAP MAY MEAN A LONG SLEEP

Fighters are careful about their theeping habits. They do not doze while they are facing their opponents, for example. At least the winning kind do not. or is knocked out.
Supposing the Nazi propaganda master, Goebbels, handed out a new dish-shis theme that Canadian troops were losing interest in the war. Let's say his fame, story ran something like this; Canadians in the Naxy, the Army and the Air Force are becoming weary; they are more interested in setting back home than in pressing an attack; their aggressiveness has asticiably deteriorated.
What would happen to Gobbels' propaganda in this country? Why, in every big and little town people would laugh it down! We would know the story was a pack of lies. Nothing that the German liemasters invented could destroy our faith in the determination of our mast to win, no matter what the cost.

faith in the determination of our more to win, no matter what the cost.

But suppose that Goebbels tried his hand at such tactics, in reverse. Let us imagine that he blanted the following story among Canadian troops overseas: the folks at home are becoming weary of the war; production is dropping noticeably in plants throughout the country; absenteeism is growing into a major problem; young and old are spending more and more money for selfish purposes and are becoming less interested in Victory Loan drives.

Would our men overseas in such a situation have the same confidence in us and the same secon of such a rumor-story as we would show against the reverse propaganda? We think the answer would be "yes". We believe that our troops have confidence in the home front. We have given them every reason for such faith in the past three years. But if we are to be champions in our field as our men in uniform are champions over there, we will remember that even a slight relaxation can prove our undoing. This is particularly applicable to our present task of making the Fifth Victory Loan ampaign an outstanding success.

# **Dwindling Oil Supplies Of The Enemy May Prove A Factor In** Hastening The End Of The War

W HETHER the war in Europe can be won in the air is still a question that has no certain answer. The wisest word to date on the subject was that spoken by Mr. Churchill when he told the United States Congress and the world that "it is worth trying." What is not open to decise is that dominance in the air is the prelude to victory. It can soften the invasion approaches and protect invading troops as it dod in Sielly, as it will do elsewhere. So the oil we civilans may not use becomes the No. 1 woldier in our present war.

## FARMERS AND FARM WORKERS

#### If Your Farm Work has Slackened for the Winter, You Are Needed Elsewhere in Essential Employment

Highly essential work—very important in Canada's war effort and for the welfare of the Nation—is threatened with shortages of workers. One of the few sources of men available for other high priority jobs is those men on the farm who will not be needed at home during the Fall and Winter. Heavy needs must be met in many lines—producing vitally essential forest products; in base metal and coal mining, in food processing, in railway track maintenance. If you live on a farm and are not needed at home during the Fall and Winter, you are urged to answer this national appeal.

Farmers engaged in essential work during the off season will be allowed to return home when needed. Also, those on postponement under Mobilithose on postponement unaer Mounta-zation Regulations will continue on postponement while in approved essen-tial work during the slack season on the farm.

Ground Airmen Will Have Opportunity To Receive Instruction

A "trade improvement" plan under which every ground airman and airwonan in Canada will have an opportunity to take up-to-the-minute instruction in their particular trades was announced by R.C.A.F. head-quarters.

The plan is under direction of R.C.A.F. culturational services. Objective is to improve the skill of personnel in all ground trades. Inclientally, it will make them eligible for higher pay.

Special classes are being arranged for each unit by the education officer. Lectures and lantern skiles will be combined in the classicoms and instruction also will be given in the hangars or actually on the job.

New manuals of instruction for all ground trades are being provided by the educational services of the R.C.

A.F. Students and instructors will both get them.

Many Things Have Been Suggested
As Substitute For Coffee
The Peterle rough Examiner says
the shortage of coffee is driving some
coffee-driblers to horithle expedients.
President Hoosevelt has suggested that coffee grounds be given
a "second term" and bottlet twice in
order to get all the flavor out of
them. Anyone who has drunk second term coffee will know what this
means. And a Teronto man has suggested that brain solt and molasses
med and bisled provides something
which, when steeped, is a substitute
for coffee. This lethal dose he deserribes use for has he been maddened
by lack of real coffees as a "truly
deficious beverue, cheap and healthtial." For norself we simply tool a
few acoms in link, and the resulting
beverage destroys any desire for coffee for several hours.

#### How About "Hallowe'en"?

The Kinsmen Club through-out the West are organizing for Hallowe'en. They propose that the kiddies collect pennies for the "Milk for Britain Fund"

They don't want to spoil the fun, but suggest that the kiddies put on their masks and dress up and go from house to house collecting pennies instead of treats. The treats aren't

vailable anyway.
In some towns the school teachers or other organizations are sponsoring the affair. How about it, Didsbury?
